Awards

May,2026 | Atiker Yazılım
2nd Place — Clomosy Competition

Experience

2026

AgroPulse

Founder & CEO

Developed an AI-powered, IoT-integrated smart irrigation system that scales from single-pot modules to full greenhouse automation. Managed the core team and handled the technical architecture.

2023-2024

Zensoft Yazılım A.Ş

Software Intern

Completed a 6-month internship focused on website design and social media management — sharpening front-end skills, design sensibility, and digital marketing know-how in a fast-paced software company environment.

2024-2025

Turkcell

Technical Team

Worked actively within the technical support and operations team, contributing to day-to-day infrastructure management and technical problem-solving in one of Turkey's leading telecommunications companies.

Education

2022-2024

Isparta University of Applied Sciences

Computer Programming

2025-2027

Selcuk University

Management Information Systems
